

# Innersource is GitHub culture and open source principles

**Thomas Aidan Curran**

Co founder ORY, former CTO Deutsche Telekom, SAP/Hybris, Bertelsmann

23 May 2019, Kraftwerk Berlin

1: //

# Why GitHub Enterprise {search, talent, speed}

[tacurran.github.io/180612-cebitgithubfuture](http://tacurran.github.io/180612-cebitgithubfuture)

2: build

# Product management and product teams

3: use

# Communities of practice

4: for

# Learning by doing

5: if

## Data-driven KPI approach

6: then

Automate processes

Automate compliance

Automate almost everything

7: while

GitHub community +  
DevOps toolchain

8: write

Slack, Discord and co  
{no email}

9: get

Immediate feedback +  
customer interaction

10: open

Product development lab for  
intersource projects  
{break down the silos}
